

2009 Test of Metal Overall Results

Unfortunately this year we encountered problems with the timing. We estimate a window of finish times from approximately 3:22 to 3:46'ish where the times recorded do not correspond to the racer's actual time. The finish placings in this window are correct, just not the time.

Thanks to feedback from racers we've been able to narrow the original window.

If you finished in the beginning of this window, know your actual finish time and see it correctly reported in these results please let us know.

If you finished towards the end of the window, know your actual finish time and see it reported here 20 minutes faster than you know it to be let us know.

If you finished in this window and know your time but the above don't apply let us know your time and we'll update the results on the ToM website.

If you notice any other errors please let us know.

Send us an email at fix.tom.results@gmail.com.

Our apologies for the inconvenience.
